

EKYFLEX MOBILITY

MOBILITY

Description

All horses, regardless of their activity, experience strain affecting their musculoskeletal system and spine. Repeated strain may lead to discomfort or stiffness, and creates specific nutritional requirements.

Purpose

EKYFLEX MOBILITY has been formulated by AUDEVARD Laboratories to provide additional nutrition for horses with no doping restrictions undergoing treatment for musculoskeletal stiffness or discomfort.

Formula

EKYFLEX MOBILITY combines three plants: harpagophytum, chrysanthellum and horsetail. The formula also contains hyaluronic acid and vitamin C.

Our advice

EKYFLEX MOBILITY contains harpagophytum, an ingredient considered to have a doping effect. It is therefore advisable to stop administering the product 48 hours before competitions.

Daily allowance

Shake well before use. Give 30 ml EKYFLEX MOBILITY per day for 1 month, all year round or occasionally, directly into the mouth or mixed in with feed.

Instruction for use

For the purpose of antidoping-tests, it is advisable to withdraw harpagophytum-based products 48 hours prior to a competition

Professional format

1 L bottle - (EAN 3401153738524). Sufficient for 33 days' use.
